Colleagues,

Thanks to the input from all of you, the QEP topic selection committee has narrowed down the QEP topic to three possibilities. In order to continue this process, we are now asking you to rate these three topics indicating your top choice, as well as second and third choice.

Although many different topics were suggested throughout this process, it became quite clear as we sorted through the data that there were three overlying topics that emerged as themes. The topics that emerged are as follows:

- **Learning Resource Center** to provide Tutoring to a greater number of students in a greater number of academic areas. Some specific points that could be included under this include but are not limited to:
  - Writing center
  - Math center
  - Reading assistance
  - Remedial English language tutorial services
  - Test anxiety management

- **College Readiness Program** – this QEP would specifically focus on students who are coming in to the community college and provide them with a number of essential skills necessary to being a successful college student including but not limited to
  - Computer trainings
  - Study skills
  - Test anxiety workshops

- **Reading, Writing and Math across the Curriculum** – this QEP would specifically focus on the incorporation of fundamental skills across all general education courses.

Clearly, these topics are not mutually exclusive, and it may certainly be possible to incorporate aspects of each under one general heading. Once the actual topic is chosen, the QEP committee(s) will begin to work on operationalizing the topic. Additionally, various ways of incorporating existing technology such as Blackboard, Collaborate and existing online tutoring resources will be explored.

Once the topic becomes clear from the survey, we will communicate the results to all of you by May 15th. After that, the committee will continue to work throughout the summer on the specifics of the topic which will be discussed at convocation.

Please go to the following survey at [https://www.surveymonkey.com/s/372NDR3](https://www.surveymonkey.com/s/372NDR3) and rank in order from first choice to third choice your preference for the QEP topic by Friday, May 4th. It is crucial to the success of this process that we hear from all of you. Please vote on a topic. Thank you to everyone for your ideas and participation in this project thus far. This collaborative process
is the key to the success of the QEP.

Cynthia Lofaso and Rebecca Honeycutt
QEP Topic Selection Co-Chairs
1. Please rank order your choices for a QEP topic (see email for more details on each topic).
